Tom and Sean,

While we agree that this meeting is very important, and that attorneys will ultimately need to be involved in the development of an order, the agenda for the July 10 meeting is strictly (and highly) technical in nature. We were not planning to have Patty attend, and we in fact need her to be elsewhere at that time. I have consulted with Patty on this, and I agree with her opinion that these focused technical meetings without attorneys are expediting progress toward technical agreement on the project. We prefer to continue this approach.

Bob

Bob and Sean,

The importance of the issues to be discussed in the GASCO scope of work meeting cannot be understated by either Siltronic or NWN. I request that attorneys be allowed and that both Patty Dost and Alan Gladstone are invited to the July 10 meeting. Both Patty and Alan are respected problem solvers and are critical to the successful implementation of any upland or in-river SCM activities that affect both properties.
